[Reservation system](#)

[Install Instruction](#)

Extract your downloaded zip file on your PC / Laptop then find the install_package_version.zip file inside the extracted folder like this.

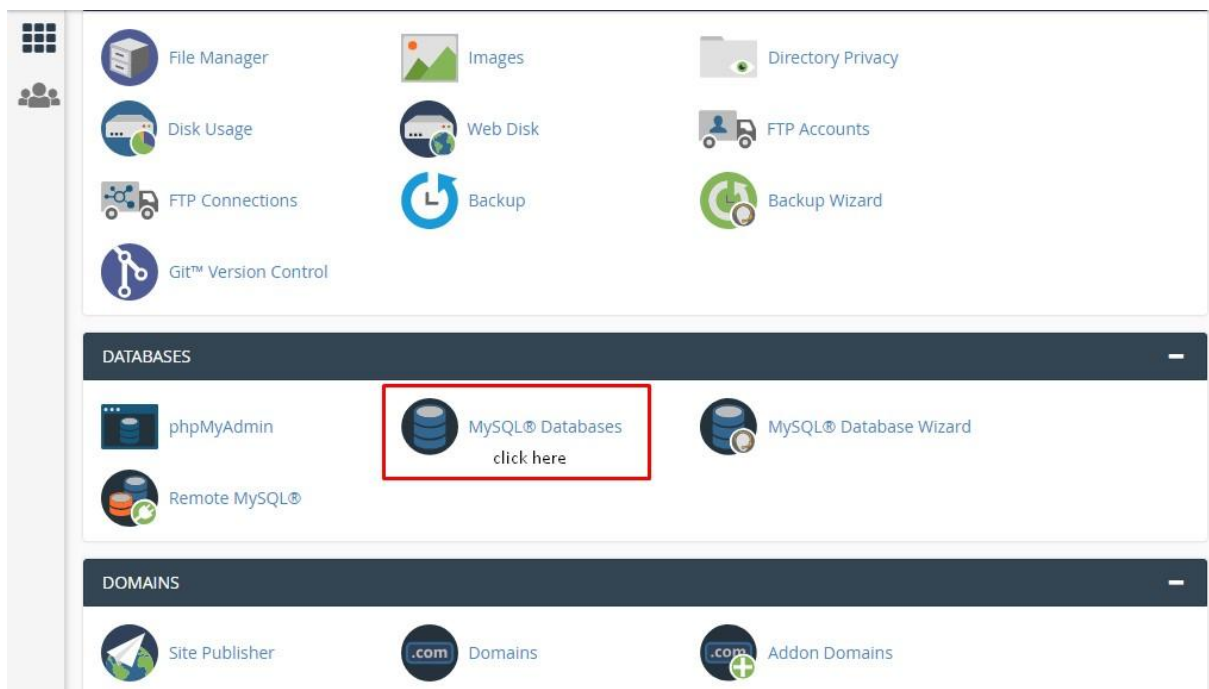

Name	Date modified	Type	Size
1-----New Installation Package	10/4/2022 8:40 PM	File folder	
2-----Update Package	10/4/2022 8:40 PM	File folder	

Name	Date modified	Type	Size
new_install_package_version_4.5.zip	10/4/2022 8:40 PM	WinRAR ZIP archive	43,945 KB

Then you have to upload the install_package_version.zip file to your server root directory/sub-domain directory.

Now Have to configure the database

Step: 1

Step 2:

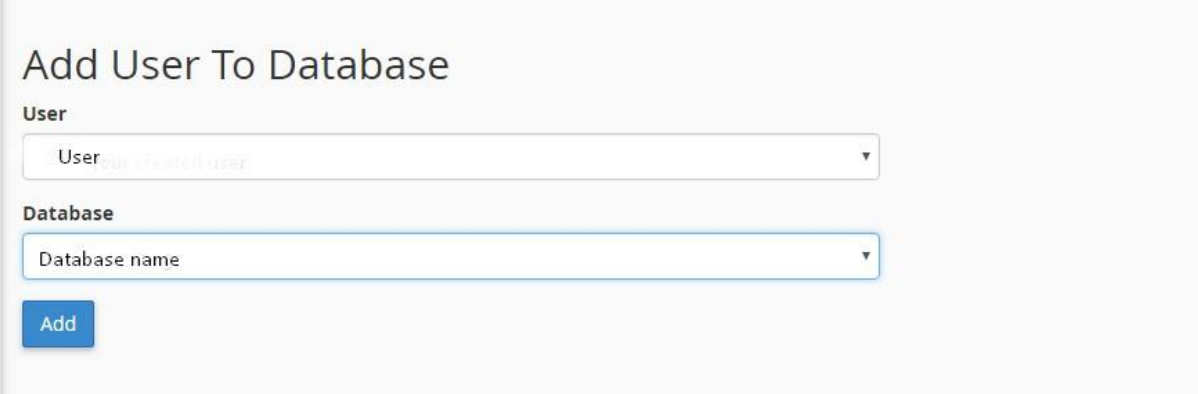

The screenshot shows the 'MySQL® Databases' interface. On the left is a sidebar with a grid icon and a group of people icon. The main header is 'MySQL® Databases'. Below the header is a paragraph: 'Manage large amounts of information over the web easily. MySQL databases are necessary to run many web-based applications, such as bulletin boards, content management systems, and more information, read the [documentation](#).' Below this is a link: '↓ Jump to MySQL Users'. The main section is titled 'Create New Database'. Underneath is the label 'New Database:' followed by a text input field containing the word 'database'. At the bottom left of this section is a blue button labeled 'Create Database'.

Step 3:

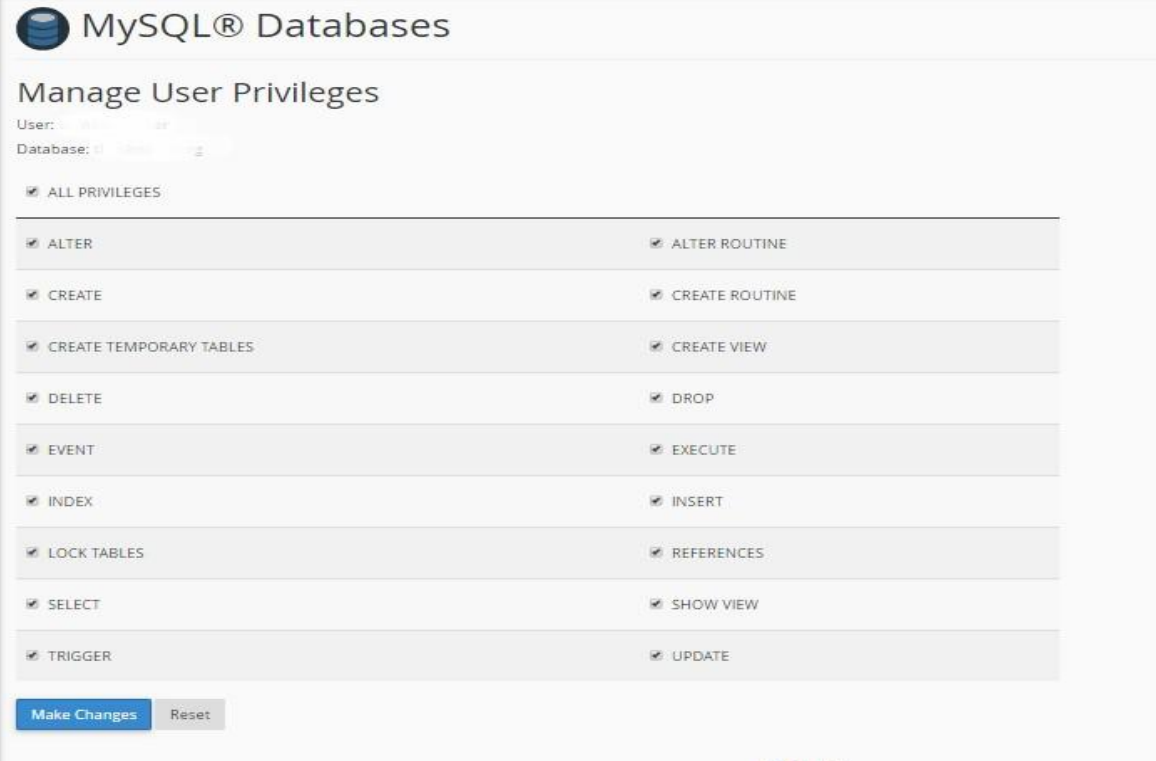

The screenshot shows the 'MySQL Users' interface. On the left is a sidebar with a grid icon and a group of people icon. The main header is 'MySQL Users'. Below the header is the title 'Add New User'. The form contains the following fields: 'Username' with a text input field containing 'thinknco_' and a placeholder 'your_user_name'; 'Password' with a password input field showing eight dots; 'Password (Again)' with a password input field showing eight dots. Below these fields is a 'Strength' section with an information icon. It features a green progress bar and the text 'Very Strong (100/100)'. To the right of the progress bar is a button labeled 'Password Generator'. At the bottom left of the form is a blue button labeled 'Create User'.

Step 4:

The screenshot shows a web form titled "Add User To Database". It contains two dropdown menus. The first is labeled "User" and has the text "User" and "out of shared user" visible. The second is labeled "Database" and has the text "Database name" visible. Below the dropdowns is a blue button labeled "Add".

Step 5:

The screenshot shows the "Manage User Privileges" page in phpMyAdmin. At the top, it says "MySQL® Databases". Below that, it says "Manage User Privileges". There are two dropdown menus for "User:" and "Database:". Below these, there is a section for "ALL PRIVILEGES" with a list of checkboxes for various privileges. The checkboxes are all checked. At the bottom, there are two buttons: "Make Changes" and "Reset".

ALL PRIVILEGES	
<input checked="" type="checkbox"/> ALTER	<input checked="" type="checkbox"/> ALTER ROUTINE
<input checked="" type="checkbox"/> CREATE	<input checked="" type="checkbox"/> CREATE ROUTINE
<input checked="" type="checkbox"/> CREATE TEMPORARY TABLES	<input checked="" type="checkbox"/> CREATE VIEW
<input checked="" type="checkbox"/> DELETE	<input checked="" type="checkbox"/> DROP
<input checked="" type="checkbox"/> EVENT	<input checked="" type="checkbox"/> EXECUTE
<input checked="" type="checkbox"/> INDEX	<input checked="" type="checkbox"/> INSERT
<input checked="" type="checkbox"/> LOCK TABLES	<input checked="" type="checkbox"/> REFERENCES
<input checked="" type="checkbox"/> SELECT	<input checked="" type="checkbox"/> SHOW VIEW
<input checked="" type="checkbox"/> TRIGGER	<input checked="" type="checkbox"/> UPDATE

Now Goto your URL you will get the installation wizard.

* If you did not get the wizard to write YOUR_URL/install.
